

What 'Adelaideans' think about technologies

The intent of this workshop is to develop shared meaning about what we think technologies are for and how we might develop a shared understanding with our students and parents.

WORKSHOP AGENDA

Description	Time
<p>1 Let's begin – our initial thinking</p> <ol style="list-style-type: none"> Form a pair and discuss the following question: What do you think technologies are for? Pair up with another pair to develop a shared set of 3 key points to share back with the whole group. Present your shared meaning to the rest of the group – 30 seconds each mini-presentation. 	10 min
<p>2 Introduction</p> <p>In this workshop we will watch a video clip in which the general public, students and teachers are asked what they think technologies are for. We will discuss this thinking and analyse how it fits with ours.</p>	2 min
<p>3 Learning process</p> <ol style="list-style-type: none"> Watch the video clip¹ (2.42 min). Personal reflection – While watching the video reflect on the following: <ol style="list-style-type: none"> What do Adelaideans think technologies are for? Were there any patterns? How does this connect with my understanding and our mini-presentation points? Were there any surprises? Group discussion: <ul style="list-style-type: none"> Pool your main points from your reflection and identify 2 similarities and 2 differences. How do the Adelaidean's opinions fit with your group's shared meaning? How does your thinking fit with the Australian Curriculum view of the technologies learning area? View the animations digital technologies² (6.22 min) and design and technologies³ (7.15 min). 	25 min
<p>4 Summary of learning</p> <p>What is our shared meaning of what technologies are for? As a table group complete this statement: Technologies are for:</p>	5 min

5 | Commitment to action

We know that we need to have a shared understanding of what technologies are about with our students and parents.
The one thing I will do to build on my students' and parents' current thinking about technologies is:
